- (B) Unless modified herein, the RVP© is adopted for RVUs and reimbursement. Interim relative value procedures (marked by an "I" in the left-hand margin of the RVP©) are accepted as a basis of payment for services; however deleted CPT© codes (marked by an "M" in the RVP©) are not, unless otherwise advised by this rule. The CPT© 2008 is adopted for codes, descriptions, parenthetical notes and coding guidelines, unless modified in this rule.
- (C) Temporary codes listed in the RVP© may be used for billing with agreement of the payer as to reimbursement. Payment shall be in compliance with Rule 16-6(C).
- (D) Surgery/Anesthesia
  - (1) Anesthesia Section:
    - (a) All anesthesia base values shall be established by the use of the codes as set forth in the RVP©, Anesthesia Section. Anesthesia services are

only reimbursable if the anesthesia is administered by a physician or Certified Registered Nurse Anesthetist (CRNA) who remains in constant attendance during the procedure for the sole purpose of rendering anesthesia.

When anesthesia is administered by a CRNA:

- (1) Not under the medical direction of an anesthesiologist, reimbursement shall be 90% of the maximum anesthesia value,
  - (2) Under the medical direction of an anesthesiologist, reimbursement shall be 50% of the maximum anesthesia value. The other 50% is payable to the anesthesiologist providing the medical direction to the CRNA,
  - (3) Medical direction for administering the anesthesia includes performing the following activities:
    - Performs a pre-anesthesia examination and evaluation,
    - Prescribes the anesthesia plan,
    - Personally participates in the most demanding procedures in the anesthesia plan including induction and emergence,
    - Ensures that any procedure in the anesthesia plan that s/he does not perform is performed by a qualified anesthetist,
    - Monitors the course of anesthesia administration at frequent intervals,

- (b) Anesthesia add-on codes are reimbursed using the anesthesia CF and unit values found in the RVP©, Anesthesia section's Guidelines XII, "Qualifying Circumstances." (Not under the Medicine section.)
- (c) The following modifiers are to be used when billing for anesthesia services:  
AA – anesthesia services performed personally by the anesthesiologist  
QX – CRNA service; with medical direction by a physician  
QZ – CRNA service; without medical direction by a physician  
QY – Medical direction of one CRNA by an anesthesiologist
- (d) Surgery X Procedures
- (1) The surgery X procedures are limited to those listed below and found in the table under the RVP©, Anesthesia section's Guidelines XIII, "Anesthesia Services Where Time Units Are Not Allowed":

- Providing local anesthetic or other medications through a regional IV

- Endotracheal intubation
- Venipuncture, including cutdowns
- Arterial punctures
- Epidural or subarachnoid spine injections
- Somatic and Sympathetic Nerve Injections
- Paravertebral facet joint injections and rhizotomies

In addition, lumbar plexus spine anesthetic injection, posterior approach with daily administration = 7 RVUs.

- (2) The maximum reimbursement for these procedures shall be based upon the anesthesia value listed in the table in the RVP©, Anesthesia section's Guideline XIII multiplied by \$38.07 CF. No additional unit values are added for time when calculating the maximum values for reimbursement.
- (3) When performing more than one surgery X procedure in a single surgical setting, multiple surgery guidelines shall apply (100% of the listed value for the primary procedure and 50% of the listed value for additional procedures). Use modifier -51 to indicate multiple surgery X procedures performed on the same day during a single operative setting. The 50% reduction does not apply to procedures that are identified in the RVP© as "Add-on" procedures.
- (4) Bilateral injections: see 18-5(D)(2)(g).

These programs can benefit persons who have limitations that interfere with their physical, psychological, social, and/or vocational functioning. As defined in Rule 17 Medical Treatment Guidelines,

interdisciplinary rehabilitation programs may include, but are not limited to: chronic pain, spinal cord, or brain injury programs.

**Billing Restrictions:** All billing providers shall detail to the payer the services, frequency of services, duration of the program and their proposed fees for the entire program, inclusive for all professionals. The billing provider and payer shall attempt to mutually agree upon billing code(s) and fee(s) for each interdisciplinary rehabilitation program.

If there is a single billing provider for the entire interdisciplinary rehabilitation program and a daily per diem rate is mutually agreed upon, use billing code Z500.

If the individual interdisciplinary rehabilitation professionals bill separately for their participation in an interdisciplinary rehabilitation program, the applicable CPT® codes shall be used to bill for their services. Demonstrated participation in an interdisciplinary rehabilitation program allows the use of the frequencies and durations listed in the relevant medical treatment guidelines recommendations.

- (5) Procedures (therapeutic exercises, neuromuscular re-education, aquatic therapy, gait training, massage, acupuncture, manual therapy techniques, therapeutic activities, cognitive development, sensory integrative techniques and any unlisted physical medicine procedures)

- (a) All evaluation services must be supported by the appropriate history, physical examination documentation, treatment goals and treatment plan or re-evaluation of the treatment plan. The provider shall clearly state the reason for the evaluation, the nature and results of the physical examination of the patient, and the reasoning for recommending the continuation or adjustment of the treatment protocol. Without appropriate supporting documentation, the payer may deny payment. The re-evaluation codes shall not be billed for routine pre-treatment patient assessment.

If a new problem or abnormality is encountered that requires a new evaluation and treatment plan, the professional may perform and bill for another initial evaluation. A new problem or abnormality may be caused by a surgical procedure being performed after the initial evaluation has been completed.

- (b) Payers are only required to pay for evaluation services directly performed by a PT, OT, or athletic trainer as defined in §12-36-106 C.R.S. All evaluation notes or reports must be written and signed by the PT or OT. Physicians shall bill the appropriate E&M code from the E&M section of the RVP©.

- Fees, such as gyms, pools, etc., and training or supervision by non-medical providers require prior authorization from the payer and a written negotiated fee.
- (13) Unlisted Service Physical Medicine
- All unlisted services or procedures require a report.
- (14) Work Conditioning, Work Hardening, Work Simulation
- (a) Work conditioning is a non-interdisciplinary program that is focused on the individual needs of the patient to return to work. Usually one

discipline oversees the patient in meeting goals to return to work. Refer to Rule 17, Medical Treatment Guidelines.

Restriction: Maximum daily time is two (2) hours per day without additional prior authorization.

- (b) Work Hardening is an interdisciplinary program that uses a team of disciplines to meet the goal of employability and return to work. This type of program entails a progressive increase in the number of hours a day that an individual completes work tasks until they can tolerate a full workday. In order to do this, the program must address the medical, psychological, behavioral, physical, functional and vocational components of employability and return to work. Refer to Rule 17, Medical Treatment Guidelines.

Restriction: Maximum daily time is six (6) hours per day without additional prior authorization.

- (c) Work Simulation is a program where an individual completes specific work-related tasks for a particular job and return to work. Use of this program is appropriate when modified duty can only be partially accommodated in the work place, when modified duty in the work place is unavailable, or when the patient requires more structured supervision. The need for work simulation should be based upon the results of a functional capacity evaluation and/or job analysis. Refer to Rule 17, Medical Treatment Guidelines.

- (d) For Work Conditioning, Work Hardening, or Work Simulation, the following apply.

- (1) The provider shall submit a treatment plan including expected frequency and duration of treatment. If requested by the provider, the payer will prior authorize payment for the treatment plan services or shall identify any concerns including those based on the reasonableness or necessity of care.

- (3) Provider Restrictions: All procedures must be performed by or under the onsite supervision of a physician, PT, OT, speech language pathologist or audiologist.

(I) Evaluation and Management Section (E&M)

- (1) Medical record documentation shall encompass the RVP© "E&M Guideline" criteria to justify the billed E&M service. If 50% of the time spent for an E&M visit is disability counseling or coordination of care, then time can determine the level of E&M service. Documented telephonic or on-line communication time with the patient or other healthcare providers one day prior or seven days following the scheduled E&M visit may be included in the calculation of total time.

Disability counseling should be an integral part of managing workers' compensation injuries. The counseling shall be completely documented in the

medical records, including, but not limited to, the amount of time spent with the injured worker and the specifics of the discussion as it relates to the individual patient. Disability counseling shall include, but not be limited to, return to work, temporary and permanent work restrictions, self management of symptoms while working, correct posture/mechanics to perform work functions, job task exercises for muscle strengthening and stretching, and appropriate tool and equipment use to prevent re-injury and/or worsening of the existing injury.

(2) New or Established Patients

An E&M visit shall be billed as a “new” patient service for each “new injury” even though the provider has seen the patient within the last three years. Any subsequent E&M visits are to be billed as an “established patient” and reflect the level of service indicated by the documentation when addressing all of the current injuries.

(3) Number of Office Visits

All providers, as defined in Rule 16-5 (A-B), are limited to one office visit per patient, per day, per workers’ compensation claim unless prior authorization is obtained from the payer. The E&M Guideline criteria as specified in the RVP© E&M Section shall be used in all office visits to determine the appropriate level.

(4) Treating Physician Telephone or On-line Services.

Telephone or on-line services may be billed if:

- (a) the service is performed more than one day prior to a related E&M office visit, or
- (b) the service is performed more than 7 days following a related E&M office visit, and
- (c) when the medical records/documentation specifies all the following:
  - (1) the amount of time and date;
  - (2) the patient, family member, or healthcare provider talked to, and
  - (3) the specifics of the discussion and/or decision made during the communication.

(5) Face-to-face or Telephonic Treating Physician or Qualified Non-physician Medical Team Conferences.

A medical team conference can only be billed if all of the criteria are met under CPT®. A medical team conference shall consist of medical professionals caring for the injured worker.

The billing statement shall be prepared in accordance with Rule 16, Utilization Standards.

(6) Face -to-face or telephonic meeting by a non-treating physician with the employer, claim representatives or any attorney in order to provide a medical

opinion on a specific workers' compensation case which is not accompanied by a specific report or written record.

Billing Code DoWC Z601: \$65.00 per 15 minutes billed to the requesting party.

Maximum Rate of \$450.00 per hour

(E) Mileage Expenses

The payer shall reimburse an injured worker for reasonable and necessary mileage expenses for travel to and from medical appointments and reasonable mileage to obtain prescribed medications. The reimbursement rate shall be 55 cents per mile. The injured worker shall submit a statement to the payer showing the date(s) of travel and number of miles traveled, with receipts for any other reasonable and necessary travel expenses incurred.

Mileage Expense Billing Code: DoWC Z723

(F) Permanent Impairment Rating

(1) The payer is only required to pay for one combined whole-person permanent impairment rating per claim, except as otherwise provided in these Workers' Compensation Rules of Procedures. Exceptions that may require payment for an additional impairment rating include, but are not limited to, reopened cases, as ordered by the Director or an administrative law judge, or a subsequent request to review apportionment. The authorized treating provider is required to submit in writing all permanent restrictions and future maintenance care related to the injury or occupational disease.

(2) Provider Restrictions

The permanent impairment rating shall be determined by the authorized Level II accredited physician (see Rule 5-5(D)(1) and (2)).

(3) Maximum Medical Improvement (MMI) Determined Without any Permanent Impairment

When physicians determine the injured worker is at MMI and has no permanent impairment, the physicians should be reimbursed an appropriate level of E&M service and the fee for completing the Physician's Report of Workers' Compensation Injury (Closing Report), WC164 (See Rule 18-6(G)(2)). Reimbursement for the appropriate level of E&M service is only applicable if the physician examines the injured worker and meets the criteria as defined in the RVP®.

(4) MMI Determined with a Calculated Permanent Impairment Rating

(a) Calculated Impairment: The total fee includes the office visit, a complete physical examination, complete history, review of all medical records, determining MMI, completing all required measurements, referencing all tables used to determine the rating, using all report forms from the AMA's *Guide to the Evaluation of Permanent Impairment*, Third Edition (Revised), (AMA Guides), and completing the Division form, titled Physician's Report of Workers' Compensation Injury (Closing Report) WC164.

(b) Use the appropriate RVP© code:

- (1) Fee for the Level II Accredited Authorized Treating Physician Providing Primary Care:

Reimbursed for 1.5 hours with a maximum not to exceed \$343.59.

- (2) Fee for the Referral, Level II Accredited Authorized Physician:

Reimbursed for 2.5 hours with a maximum not to exceed \$660.75.

- (3) A return visit for a range of motion (ROM) validation shall be reimbursed using the appropriate separate procedure CPT© code in the medicine section.

- (4) Fee for a Multiple Impairment Evaluation Requiring More Than One Level II Accredited Physician:

All physicians providing consulting services for the completion of a whole person impairment rating shall bill using the appropriate E&M consultation code and shall forward their portion of the rating to the authorized physician determining the combined whole person rating.

(G) Report Preparation

- (1) Routine Reports

Completion of routine reports or records are incorporated in all fees for service and include:

Diagnostic Testing

Procedure Reports

Progress notes

Office notes

Operative reports

Supply invoices, if requested by the payer

Providers shall submit routine reports free of charge as directed in Rule 16-7(E) and by statute. Requests for additional copies of routine reports and for reports not in Rule 16-7(E) or in statute are reimbursable under the copying fee section of Rule 18.

- (2) Completion of the Physician's Report of Workers' Compensation Injury (WC164)

- (a) Initial Report

The designated or selected authorized treating physician for this workers' compensation injury completes the initial WC 164 and submits it to the payer and to the injured worker after the first visit with the injured worker. This form shall include completion of items 1-7 and 10. Note that certain information in Item 2 (such as Insurer Claim #) may be omitted if not known by the provider.

(b) Closing Report

The WC164 closing report is required from the authorized treating physician when an injured worker is at maximum medical improvement with or without a permanent impairment. A physician may bill for the completion of the WC164 if neither impairment rating code (see Rule 18-6(F)(4)) has been billed. The form requires the completion of items 1-5, 6 b-c, 7, 8 and 10. If the injured worker has sustained a permanent impairment, then Item 9 must be completed and the following additional information shall be attached to the bill at the time MMI is determined:

- (1) All necessary permanent impairment rating reports when the authorized treating physician is Level II Accredited, or
- (2) The name of the Level II Accredited physician designated to perform the permanent impairment rating when a rating is necessary and the authorized treating physician is not determining the permanent impairment rating.

(c) Payer Requested WC164 Report

If the payer requests the provider complete the WC164 report, the payer shall pay the provider for the completion and submission of the completed WC164 report.

(d) Provider Initiated WC164 Report

If the provider wants to use the WC164 report as a progress report or for any purpose other than those designated here in Rule 18-6(G)(2)(a), (b) or (c)), and seeks reimbursement for completion of the form, the provider shall get prior approval from the payer.

(e) Billing Codes and Maximum Allowance for completion and submission of WC164 report

Maximum allowance for the completion and submission of the WC164 Report is:

DoWC Z750	\$42.00	Initial Report
DoWC Z751	\$42.00	Progress Report (Payer Requested or Provider Initiated)
DoWC Z752	\$42.00	Closing Report
DoWC Z753	\$42.00	Initial and Closing Reports are completed on the same form for the same date of service

- (3) Request for physicians to complete additional forms sent to them by a payer or employer shall be paid by the requesting party. A form requiring 15 minutes or less of a physician's time shall be billed pursuant to A & B below. Forms requiring more than 15 minutes shall be paid as a special report.
- a. Billing Code Z754
  - b. Maximum fee is \$42.00 per form completion

(4) Special Reports

Description: The term special reports includes reports not otherwise addressed under Rule 16, Utilization Standards, Rule 17, Medical Treatment Guidelines and Rule 18, including any form, questionnaire or letter with variable content. This includes, but is not limited to, independent medical evaluations or reviews performed outside C.R.S. §8-42-107.2 (the Division IME process), and treating or non-treating medical reviewers or evaluators producing written reports pertaining to injured workers not otherwise addressed. Special reports also include payment for meeting, reviewing another's written record, and amending or signing that record (see Rule 18-5(l)(7)). Reimbursement for preparation of special reports or records shall require prior agreement with the requesting party. In special circumstances (e.g., when reviewing and/or editing is necessary) and when prior agreement is made with the requesting party, institutions, clinics or physicians' offices may charge additional time. Use the appropriate RVP© code.

Billable Hours: Because narrative reports may have variable content, the content and total payment shall be agreed upon by the provider and the report's requester before the provider begins the report.

Advance Payment: If requested, the provider is entitled to a two hour deposit in advance in order to schedule any patient exam associated with a special report.

Cancellation:

Written Reports Only: In cases of cancellation for those special reports not requiring a scheduled patient exam, the provider shall be paid for the time s/he has reasonably spent in preparation up to the date of cancellation.

IME/report with patient exam: In cases of special reports requiring a scheduled patient exam, if the provider is notified of a cancellation at least seven (7) business days prior to the scheduled patient exam, the provider shall be paid for the time s/he has reasonably spent in preparation and shall refund to the party requesting the special report any portion of an advance payment in excess of time actually spent preparing.

In cases of special reports requiring a scheduled patient exam, if the provider is notified of a cancellation at least five (5) business days but less than seven (7) business days prior to the scheduled patient exam, the provider shall be paid for the time s/he has reasonably spent in preparation and one-half the time scheduled for the patient exam. Any portion of a deposit in excess of this amount shall be refunded.

In cases of special reports requiring a scheduled patient exam, if the provider is notified of a cancellation less than five (5) business days prior to the scheduled patient exam, the provider shall be paid for the time s/he has reasonably spent in preparation and has scheduled for the patient exam.

(H) Supplies, Durable Medical Equipment (DME), Orthotics and Prostheses

- (1) Unless otherwise indicated in this rule, minimum payment for supplies shall reflect the provider's actual cost plus a 20% markup. Cost includes shipping and handling charges.
- (2) Providers may bill supplies, including "Supply et al.," orthotics, prostheses, DMEs or drugs, including injectables, using Medicare's HCPCS Level II codes. The billing provider is responsible for identifying their cost for the items they wish to be paid at their cost plus 20% instead of Medicare's HCPCS Level II maximum fee. This may be done using an advance agreement between the payer and provider or may be done by furnishing an invoice or their supplier's published rate with their bill.
- (3) Payers may pay using Medicare's HCPCS Level II maximum fee values for the codes billed unless the provider has indicated that the item(s) is to be paid at cost plus 20%. The payer may request an invoice or published rate for any items to be paid at cost plus 20%.
- (4) If the provider failed to indicate that an item was to be paid at cost plus 20%, and their cost plus 20% is more than the Medicare HCPCS Level II value, the provider may submit cost information within 60 days following receipt of the Explanation of Benefits (EOB) and is entitled to at least their cost plus 20%.
- (5) Payment for professional services associated with the fabrication and/or modification of orthotics, custom splints, adaptive equipment, and/or adaptation and programming of communication systems and devices shall be paid in accordance with the RVP©.

(I) Inpatient Hospital Facility Fees

- (1) Provider Restrictions

All non-emergency, inpatient admissions require prior authorization for payment.

(2) Bills for Services

- (a) Inpatient hospital facility fees shall be billed on the UB-04 and require summary level billing by revenue code. The provider must submit itemized bills along with the UB-04.
- (b) The maximum inpatient facility fee is determined by applying the Center for Medicare and Medicaid Services (CMS) "Medicare Severity Diagnosis Related Groups" (MS-DRGs) classification system. Exhibit 1 to Rule 18 shows the relative weights per MS-DRGs that are used in calculating the maximum allowance.

The hospital shall indicate the MS-DRGs code number in the remarks section (form locator 80) of the UB-04 billing form and maintain documentation on file showing how the MS-DRGs was determined. The hospital shall determine the MS-DRGs using the MS-DRGs *Definitions Manual*. The attending physician shall not be required to certify this documentation unless a dispute arises between the hospital and the payer regarding MS-DRGs assignment. The payer may deny payment for services until the appropriate MS-DRGs code is supplied.

- (c) Exhibit 1 to Rule 18 establishes the maximum length of stay (LOS) using the "arithmetic mean LOS". However, no additional allowance for exceeding this LOS, other than through the cost outlier criteria under Rule 18-6(1)(3)(d) is allowed.
- (d) Any inpatient admission requiring the use of both an acute care hospital and its Medicare certified rehabilitation facility is considered as one admission and MS-DRG. This does not apply to long term care and licensed rehabilitation facilities.

(3) Inpatient Facility Reimbursement:

- (a) The following types of inpatient facilities are reimbursed at 100% of billed inpatient charges:
  - (1) Children's hospital
  - (2) Veterans' Administration hospital
  - (3) State psychiatric hospital
- (b) The following types of inpatient facilities are reimbursed at 80% of billed inpatient charges:
  - (1) Medicare certified Critical Access Hospital (CAH) (listed in Exhibit 3 of Rule 18)
  - (2) Medicare certified long-term care hospital
  - (3) Colorado Department of Public Health and Environment (CDPHE) licensed rehabilitation facility, and,
  - (4) CDPHE licensed psychiatric facilities that are privately owned.

(5) CDPHE licensed skilled nursing facilities (SNF).

(c) All other inpatient facilities are reimbursed as follows:

Retrieve the relative weights for the assigned MS-DRG from the MS-DRG table in Exhibit 1 to Rule 18 and locate the hospital's base rate in Exhibit 2 to Rule 18.

The "Maximum Fee Allowance" is determined by calculating:

(1) (MS-DRG Relative Wt x Specific hospital base rate x 175%) + (reimbursement for all "Supply et al.") + (trauma center activation allowance)

(2) "Supply et al." is defined in Rule 16-2. Reimbursement shall be consistent with Rule 18-6(H). The billing provider is responsible for identifying and itemizing all "Supply et al." items.

(3) For trauma center activation allowance, see Rule 18-6(M)(3)(g).

(d) Outliers are admissions with extraordinary cost warranting additional reimbursement beyond the maximum allowance under (3) (c) of Rule 18-6(I). To calculate the additional reimbursement, if any:

(1) Determine the "Hospital's Cost":

total billed charges (excluding any "Supply et al." billed charges and trauma center activation billed charges) multiplied by the hospital's cost-to-charge ratio.

(2) Each hospital's cost-to-charge ratio is given in Exhibit 2 of Rule 18.

(3) The "Difference" = "Hospital's Cost" – "Maximum Fee Allowance" excluding any "Supply et al." allowance and trauma center activation allowance (see (c) above)

(4) If the "Difference" is greater than \$25,800.00, additional reimbursement is warranted. The additional reimbursement is determined by the following equation:

"Difference" x .80 = additional fee allowance

(e) Inpatient combined with ERD or Trauma Center reimbursement

(1) If an injured worker is admitted to the hospital, the ERD reimbursement is included in the inpatient reimbursement under 18-6(I)(3),

(2) Except, Trauma Center activation fees (see 18-6(M)(3)(g)) are paid in addition to inpatient fees (18-6(I)(3)(c-d)).

(f) If an injured worker is admitted to one hospital and is subsequently transferred to another hospital, the payment to the transferring hospital will be based upon a per diem value of the MS-DRG maximum value.

The per diem value is calculated based upon the transferring hospital's MS-DRG relative weight multiplied by the hospital's specific base rate (Exhibit 2 to Rule 18) divided by the MS-DRG geometric mean length of stay (Exhibit 1 to Rule 18). This per diem amount is multiplied by the actual LOS. If the patient is admitted and transferred on the same day, the actual LOS equals one (1). The receiving hospital shall receive the appropriate MS-DRG maximum value.

- (g) To comply with Rule 16-6(B), the payer shall compare each billed charge type:
- The MS-DRG adjusted billed charges to the MS-DRG allowance (including any outlier allowance),
  - "Supply et al." billed charges to the "Supply et al." allowance [cost + 20%], and
  - the trauma center activation billed charge to the trauma center activation allowance.

The MS-DRG adjusted billed charges are determined by subtracting the "Supply et al." billed charges and the trauma center activation billed charges from the total billed charges. The final payment is the sum of the lesser of each of these comparisons.

(J) Scheduled Outpatient Surgery Facility Fees

(1) Provider Restrictions

- (a) All non-emergency outpatient surgeries require prior authorization from the payer.
- (b) A separate facility fee is only payable if the facility is licensed by the Colorado Department of Public Health and Environment (CDPHE) as:
- (1) a hospital; or
  - (2) an Ambulatory Surgery Center (ASC).

(2) Bills for Services

- (a) Outpatient facility fees shall be billed on the UB-04 and require summary level billing by revenue code. The provider must submit itemized bills along with the UB-04.
- (b) All professional charges are subject to the RVP© and Dental Fee Schedules as incorporated by Rule 18.
- (c) ASCs and hospitals shall bill using the surgical RVP© code(s) as indicated by the surgeon's operative note up to a maximum of four surgery codes per surgical episode.

(3) Outpatient Surgery Facility Reimbursement:

- (a) The following types of outpatient facilities are reimbursed at 100% of billed outpatient charges:
- (1) Children's hospital
  - (2) Veterans' Administration hospital
  - (3) State psychiatric hospital
- (b) CAHs, listed in Exhibit 3 of Rule 18, are to be reimbursed at 80% of billed charges.
- (c) All other outpatient surgery facilities are reimbursed based on Exhibit 4 of this Rule 18. Exhibit 4 lists Medicare's Outpatient Hospital Ambulatory Prospective Payment Codes (APC) with the Division's values for each APC code. Grouper code 210, found in Exhibit 4, was DoWC created to reimburse RVP© spinal fusion codes not listed in Medicare's Addendum B.

The surgical procedure codes are classified by APC code in Medicare's April 2008 Addendum B. This Addendum B should be used to determine the APC code payable under the Division's Exhibit 4. However, not every surgical code listed under Addendum B warrants a separate facility fee.

The APC values listed in Exhibit 4 include reimbursement for the following even if they are billed as line item charges:

- nursing services, including but not limited to, IV insertion or other injections, drug administration, pulse ox, ekg
- technician and related services,
- use by the recipient of the facility including the operating room and recovery room,
- equipment directly related to the provision of surgical procedures,
- fluoroscopy and x-rays used during the surgical episode,
- supplies, drugs, biologics, surgical dressings, splints, cases and appliances that do not meet the "Supply et al." threshold,
- administration, record keeping, housekeeping items and services, and
- materials and trained observer for anesthesia.
- anesthetic blocks used for pain control following a surgical procedure.

The April 2008 Addendum B can be accessed at Medicare's Hospital Outpatient PPS website.

Total maximum facility value for an outpatient surgical episode of care includes the sum of:

- (1) The highest valued APC code per Exhibit 4 plus 50% of any lesser-valued APC code values.

Multiple procedures and bilateral procedures are to be indicated by the use of modifiers –51 and –50, respectively. The 50% reduction applies to all lower valued procedures, even if they are identified in the RVP© as modifier -51 exempt. The reduction also applies to the second "primary" procedure of bilateral procedures.

The surgery discogram procedure (APC 388) value is for each level and includes conscious sedation and the technical component of the radiological procedure.

Facility fee reimbursement is limited to a maximum of four surgical procedures per surgical episode with a maximum of only one procedure reimbursed at 100% of the allowed value; and

- (2) "Supply et al." is defined in Rule 16-2. Reimbursement shall be consistent with Rule 18-6(H). The billing provider is responsible for identifying and itemizing all "Supply et al." items; and
- (3) Diagnostic testing and preoperative labs are reimbursed by applying the appropriate CF to the unit values for the specific CPT® code as listed in the RVP.

RVP© radiological procedure codes (not the injection codes) with an appropriate modifier are to be used for all arthrograms and myelograms; and

- (4) Observation room maximum allowance is limited to 6 hours without prior authorization. Documentation should support the medical necessity for observation or convalescent care. Observation time begins when the patient is placed in a bed for the purpose of initiating observation care in accordance with the physician's order. Observation or daily outpatient convalescence time ends when the patient is actually discharged from the hospital or ASC or admitted into a licensed facility for an inpatient stay. Observation time would not include the time patients remain in the observation area after treatment is finished for reasons such as waiting for transportation home. Hospital or convalescence licensure is required for billing observation or convalescence time beyond 23 hours.

Billing Codes:

G0378 Observation/Convalescence rate: \$45.00 per hour rounded to the nearest hour.

(5) Additional reimbursement is payable for the following services not included in the values found in Exhibit 4 of Rule 18:

- ambulance services
- blood, blood plasma, platelets

(d) In rare cases, a reasonable facility fee may be paid when an outpatient surgical procedure poses a significant risk to the injured worker if performed in a lesser facility, even if the procedure:

- Has a zero dollar value in Exhibit 4, and/or
- Cannot be assigned to an APC Grouper based on Medicare's Addendum B.

In such instances, the risk factors in the specific case shall meet one or more of the following conditions:

- The injured worker has high risk co-morbidities and/or high risk diagnosis(es);
- The procedure performed is associated with a significant risk of death and/or physical harm to other body system(s) or limbs;
- A drug administered during the surgical episode requires significant patient monitoring due to the level of risk involved with the drug.

In order for the level of risk to be assessed by the payer, the billing provider shall justify in writing why the procedure is a risk to the worker by delineating how the above conditions exist in the case in question.

The justification shall be case specific, not a generalization that could apply to other cases.

Once the risk to the injured worker has been provided in writing and the payer has agreed or it is ordered that this procedure may occur in the facility, a reasonable dollar value shall be determined by using a similar procedure code (if the exact code cannot be used) that can be assigned under Exhibit 4 or under Medicare's Addendum B. If a value does not exist in Exhibit 4, then the APC dollar value from Medicare's Addendum B is multiplied by 170%. The services normally included in Exhibit 4 values shall be included in this reimbursement value, and the services allowed as additional reimbursement under Rule 18-6 (J)(3)(c)(2)-(5) would be allowed.

(e) Discontinued surgeries require the use of modifier -73 (discontinued prior to administration of anesthesia) or modifier -74 (discontinued after administration of anesthesia). Modifier -73 results in a reimbursement of 50% of the APC value for the primary procedure only. Modifier -74 allows reimbursement of 100% of the primary procedure value only.

- (f) All surgical procedures performed in one operating room, regardless of the number of surgeons, are considered one outpatient surgical episode of care for purposes of facility fee reimbursement.
- (g) In compliance with rule 16-6(B), the sum of Rule 18-6(J)(3)(c)(1-5) is compared to the total facility fee billed charges. The lesser of the two amounts shall be the maximum facility allowance for the surgical episode of care. A line by line comparison of billed charges to the calculated maximum fee schedule allowance of 18-6(J)(3)(c) is not appropriate.

(K) Outpatient Diagnostic Testing and Clinic Facility Fees

(1) Bills for Services

All providers shall indicate whether they are billing for the total, professional only or technical only component of a diagnostic test by listing the appropriate RVP© modifier on the UB-04 or CMS 1500 (08-05).

(2) Reimbursement

(a) The following types of outpatient diagnostic testing and clinic facilities are reimbursed at 100% of billed charges:

- (1) Children's hospitals,
- (2) Veterans' Administration hospitals
- (3) State psychiatric hospitals

(b) Rural health facilities listed in Exhibit 5 are reimbursed at 80% of billed charges for clinic visits, diagnostic testing, and supplies and drugs that do not meet the "Supply et al." threshold.

"Supply et al." is defined in Rule 16-2 and reimbursement shall be consistent with Rule 18-6(H). The billing provider is responsible for identifying and itemizing all "Supply et al." items.

(c) All other facilities:

- (1) No separate allowance for clinic visit fees. Supplies are reimbursed in accordance with Rule 18-6(H).
- (2) No separate facility fee allowance for diagnostic testing. Facility fees for diagnostic testing are considered part of the procedure's technical component value except when there is a value listed in Exhibit 4 for the diagnostic test. Outpatient diagnostic testing is reimbursed using the RVP© code unit value. Dyes and contrasts may be reimbursed at 80% of billed charges.
- (3) "Supply et al." is defined in Rule 16-2 and reimbursement shall be consistent with Rule 18-6(H). The billing provider is responsible for identifying and itemizing all "Supply et al." items.

- (d) Any prescription for a drug supply to be used longer than a 24 hour period, filled at any clinic, shall fall under the requirements of and be reimbursed as, a pharmacy fee. See Rule 18-6(O).

(L) Outpatient Urgent Care Facility Fees

(1) Provider Restrictions:

- (a) Prior agreement or authorization is recommended for all facilities billing a separate Urgent Care fee. Facilities must provide documentation of the required urgent care facility criteria if requested by the payer.

- (b) Urgent care facility fees are only payable if the facility qualifies as an Urgent Care facility. Facilities licensed by the CDPHE as a Community Clinic (CC) or a Community Clinic and Emergency Center (CCEC) under 6 CCR 1011-1, Chapter IX, should still provide evidence of these qualifications to be reimbursed as an Urgent Care facility. The facility shall meet all of the following criteria to be eligible for a separate Urgent Care facility fee:

- (1) Separate facility dedicated to providing initial walk-in urgent care;
- (2) Access without appointment during all operating hours;
- (3) State licensed physician on-site at all times exclusively to evaluate walk-in patients;
- (4) Support staff dedicated to urgent walk-in visits with certifications in Basic Life Support (BLS);
- (5) Advanced Cardiac Life Support (ACLS) certified life support capabilities to stabilize emergencies including, but not limited to, EKG, defibrillator, oxygen and respiratory support equipment (full crash cart), etc.;
- (6) Ambulance access;
- (7) Professional staff on-site at the facility certified in ACLS;
- (8) Extended hours including evening and some weekend hours;
- (9) Basic X-ray availability on-site during all operating hours;
- (10) Clinical Laboratory Improvement Amendments (CLIA) certified laboratory on-site for basic diagnostic labs or ability to obtain basic laboratory results within 1 hour;
- (11) Capabilities include, but are not limited to, suturing, minor procedures, splinting, IV medications and hydration;
- (12) Written procedures exist for the facility's stabilization and transport processes.

- (c) No separate facility fees are allowed for follow-up care. Subsequent care for an initial diagnosis does not qualify for a separate facility fee. To

receive another facility fee any subsequent diagnosis shall be a new acute care situation entirely different from the initial diagnosis.

- (d) No facility fee is appropriate when the injured worker is sent to the employer's designated provider for a non-urgent episode of care during regular business hours of 8 am to 5 pm, Monday through Friday.

(2) Bills for Services

- (a) Urgent care facility fees may be billed on a CMS 1500 (08-05).
- (b) Urgent care facility fees shall be billed using HCPCS Level II code: S9088 – “Services provided in an Urgent care facility.”

(3) Urgent Care Reimbursement

The total maximum value for an urgent care episode of care includes the sum of:

- (a) An Urgent Care Facility fee maximum allowance of \$75.00; and
- (b) “Supply et al.” is defined in Rule 16-2 and reimbursement shall be consistent with Rule 18-6(H). The billing provider is responsible for identifying and itemizing all “Supply et al.” items.

Supplies and drugs that do not meet the “Supply et al.” threshold and treatment rooms are included in the Urgent Care facility maximum fees; and

- (c) All diagnostic testing, laboratory services and therapeutic services (including, but not limited to, radiology, pathology, respiratory therapy, physical therapy or occupational therapy) shall be reimbursed by multiplying the appropriate CF by the unit value for the specific CPT® code as listed in the RVP© and Rule 18; and
- (d) The Observation Room allowance shall not exceed a rate of \$45.00 per hour and is limited to a maximum of 3 hours without prior authorization.
- (e) In compliance with Rule 16-6 (B), the sum of all Urgent Care fees charged, less any amounts charged for professional fees or dispensed prescriptions per Rule 18-6(L)(4) found on the same bill, is to be compared to the maximum reimbursement allowed by the calculated value of Rule 18-6(L)(3)(a-d). The lesser of the two amounts shall be the maximum facility allowance for the episode of urgent care. A line by line comparison is not appropriate.

- (4) Any prescription for a drug supply to be used longer than a 24 hour period, filled at any Urgent Care facility, shall fall under the requirements of, and be reimbursed as, a pharmacy fee. See Rule 18-6(O).

(M) Outpatient Emergency Room Department (ERD) Facility Fees

(1) Provider Restrictions

To be reimbursed under this section (M), all outpatient ERDs within Colorado must be physically located within a hospital licensed by the CDPHE as a general

hospital, or if free-standing ERD, must have equivalent operations as a licensed ERD. To be paid as an ERD, out-of-state facilities shall meet that state's licensure requirements.

(2) Bills For Services

- (a) ERD facility fees shall be billed on the UB-04 and require summary level billing by revenue code. The provider must submit itemized bills along with the UB-04.
- (b) Documentation should support the "Level of Care" being billed.

(3) ERD Reimbursement

- (a) The following types of facilities are reimbursed at 100% of billed ERD charges:
  - (1) Children's hospitals
  - (2) Veterans' Administration hospitals
  - (3) State psychiatric hospitals
- (b) Medicare certified Critical Access Hospitals (CAH) (listed in Exhibit 3 of Rule 18) are reimbursed at 80% of billed charges.
- (c) The ERD "Level of Care" is identified based upon one of five levels of care. The level of care is defined by the point system developed by the hospital in compliance with Medicare regulations and determined by the total number of points accumulated by assigning points to interventions completed by the ERD staff during an ERD visit. Upon request the provider shall supply a copy of their point system to the payer.
- (d) Total maximum value for an ERD episode of care includes the sum of the following:
  - (1) ERD reimbursement amount for "Level of Care" points:

ERD Level	Reimbursement
1	\$ 200.00
2	\$ 350.00
3	\$ 550.00
4	\$ 800.00
5	\$ 1,500.00
Critical Care	\$ 1,500.00

(Only the higher one of any ERD Levels or critical care codes shall be paid)

and

- (2) All diagnostic testing, laboratory services and therapeutic services not included in the hospital's point system (including, but not limited to, radiology, pathology, any respiratory therapy, PT or OT) shall be reimbursed by the appropriate CF multiplied by the unit value for the specific code as listed in the RVP© and Rule 18; and
  - (3) The observation room allowance shall not exceed a rate of \$45.00 per hour and is limited to a maximum of 3 hours without prior authorization. The documentation should support the medical necessity for observation; and
  - (4) ERD level of care maximum fees include supplies and drugs that do not meet the "Supply et al." threshold and treatment rooms. "Supply et al." is defined in Rule 16-2 and reimbursement shall be consistent with Rule 18-6(H). The billing provider is responsible for identifying and itemizing all "Supply et al." items.
- (e) For the purposes of Rule 16-6 (B), the sum of all outpatient ERD fees charged, less any amounts charged for professional fees found on the same bill, is to be compared to the maximum reimbursement allowed by the calculated value of Rule 18-6(M)(3)(d). The lesser of the two amounts shall be the maximum facility allowance for the ERD episode of care. A line by line comparison is not appropriate.
- (f) If an injured worker is admitted to the hospital through that hospital's ERD, the ERD reimbursement is included in the inpatient reimbursement under 18-6(I)(3).
- (g) Trauma Center fees are not paid for alerts. Activation fees are as follows:
